

COLD STORAGE

Budget & location notes

Location notes for the Cold Storage sequence. Keeping both old cannery buildings on hold for now - we'll lock which one we're actually using once we see the light test.

Fisherman's Cannery

\$3,300 a day, \$600 move-in. Old fish-processing building right on the water, loading doors facing the pier, holds about 20. Permit's required.

Cannery Row Storage

\$3,450 a day, \$650 move-in. Another old fish-processing building a few piers down, loading doors facing the water too, holds about 18. Permit's required here as well.

Midnight Diner

\$2,100 a day, \$400 move-in. Small booth seating, tops out around 12. No permit needed - it's privately owned.
